RESUMO PROFISSIONAL

Software Engineer with a strong focus on Backend development and high-availability systems. Solid experience building scalable microservices using Go (Golang) and PHP, integrated with AWS infrastructure (Lambda, DynamoDB, SQS, S3). Specialist in performance optimization, API design, and relational/NoSQL database architecture, operating within high-traffic platforms under Agile methodologies.

EXPERIÊNCIA PROFISSIONAL

BEDROCK STREAMING

Software Developer (Backend Engineer)

Sep 2024 – Presente, Lisbon, PT

- Specialized in the development and maintenance of critical payment systems for a high-traffic video streaming platform.
- Developed efficient and scalable microservices using Go (Golang) and PHP.
- Designed and implemented cloud-native solutions leveraging AWS services (DynamoDB, S3, Lambda) and PostgreSQL.
- Actively contributed to architecture definitions, user story creation, code reviews, and the promotion of engineering best practices.

HEXIS

Full Stack Web Developer

Jan 2024 – Aug 2024, Lisbon, PT

- Embedded within Visualsoft's team to rebuild their core e-commerce administration system completely from scratch.
- Developed robust backend functionalities and dynamic user interfaces using Laravel, Vue.js, and Inertia.js.
- Rigorously implemented Test-Driven Development (TDD) using PHPUnit and Pest, ensuring high code coverage and maintainability.
- Operated in an Agile setting, managing sprint tasks, resolving complex bugs, and handling technical spikes.

FEDRAX, LDA

Full Stack Web Developer

Sep 2021 – Dez 2023, Funchal, PT

- Co-developed an Image Processing Application with queuing systems, integrating SvelteKit, Node.js, and AWS services (S3, SQS, Lambda, DynamoDB) using TDD.
- Contributed to a high-performance backend Video Encoding project using Phalcon 4, Gearman, and FFmpeg.
- Built object-oriented architectures and robust APIs utilizing Node.js and PHP frameworks (Laravel, CodeIgniter, Phalcon).
- Implemented unit and integration tests using PHPUnit, Jest.js, and Playwright, while mentoring new team members.

COMPETÊNCIAS

Programming Languages: Go (Golang), TypeScript, JavaScript, PHP, SQL.

Technologies & Cloud: AWS (Lambda, SQS, S3, DynamoDB), Docker, PostgreSQL, MySQL, MongoDB, Gearman, Git / GitLab, CICD.

Frameworks & Tools: Laravel, Node.js, Phalcon, CodeIgniter, React, Svelte.js, Vue.js, Jira.

Testing & Quality Assurance: TDD, PHPUnit, Pest.

Languages: Portuguese (Native), English (Proficient - C2 Listening/Reading, C1 Writing/Speaking).

EDUCAÇÃO

UNIVERSITY OF MADEIRA

Bachelor's Degree in Computer Engineering

Sep 2016 – Jul 2021
